# Statistical Techniques in Sciences

From the tossing of coins to Markov chain Monte Carlo methods, this course will expose students to applications of statistical techniques in natural sciences, focusing on both the Frequentist and Bayesian approaches to statistics.

*Note: UG and PG students are welcome. Students should be comfortable with Class XII mathematics.*

**Instructor:**  
**Anjan Ananda Sen**  
(CTP-JMI)

Wednesdays and Fridays  
Time: 3:30 PM  
Venue: CTP Seminar Hall
